

LOVE FRESH - MORE ABOUT FEELING GOOD ON YOU THAN IN YOU

August 23rd, 2008

Lovefresh is a delicious line of natural body goodies that is fun, effective and oh so decadent. With hydrating sugar scrubs, rich and luxurious body butters and skin smoothing lotions - we aim to please. In scents that include pear, pomegranate and yummy lemon verbena - there's a goodie for everyone.

Lovefresh founder, **Stacey Davis** began her journey as a certified aromatherapist in the summer of 2002 and **Kaija Pitt** joined **Lovefresh** in January of 2008. Since the partnership between Stacey and Kaija they have kept **LOVEFRESH** polished, balanced and ahead of the curve. **LOVEFRESH** has been featured at a variety of boutique spas in Toronto including **TENSPOT** or you can buy online at **LOVEFRESH**.

Stacey says, "We feel women are hungry for products that are fresh and fun with an environmental conscience which is why our entire line is more than 97% natural. All of our ingredients are free of petroleum products, parabens and sodium lauryl sulphates. Consumers are becoming far more curious as to what they are putting in and on their bodies.....we are extremely label proud, and encourage people to read our ingredients."

Going out on a "**Hot Date?**" well..... lovefresh has the perfect pre-date recipe for super soft skin that will also leave that guy wondering what scent your wearing.....hmmmmmmm.

Having a heck of a time **dragging yourself outa bed Monday morning?** Our rosemary/mint sugar scrub will perk you up with its fresh rosemary and tingling peppermint essential oils or choose from one of the other 7 scrumptious scents to help you put that spring in your step and whistle yourself to work.

"We have the ultimate gift box that every woman wants..... beautifully packaged and ready to go....."

love life ~ love laughter ~ lovefresh
